7	Talia Ohana	318966231	Taloh1503@gmail.com

### **1. The rationale behind the work:**

- Each group planned its main task according to the project requirements.
- In a meeting, we discussed these main tasks and how it affects each group.
- We set priorities and how to integrate them.
- We decided that every week we have an integration meeting.
- The 2 last weeks are dedicated to tests, demo and cleaning the board.

Description

For the next week everyone needs to clone the repo to their local and make commit + push to the README file so we can make sure that it works well for everyone.
